The validity of the going concern assumptions on which the consolidated financial statements have been prepared depends on the outcome of these measures, which are subject to multiple uncertainties, including:

As a result of these multiple uncertainties, their potential interaction, and the possible cumulative effect thereof, we were unable to form an opinion as to whether the going concern basis of preparation is appropriate. Should the Group fail to achieve the above-mentioned plans and measures, it might not be able to operate as a going concern, and adjustments would have to be made to write down the carrying values of the Group's assets to their recoverable amounts, to provide for any further liabilities which might arise, and to reclassify non-current assets and non-current liabilities as current assets and current liabilities, respectively. In view of the above circumstances, the Directors have given careful consideration to the Group's hwvwtg"nks wkfkv{"tgswktgogpvu."qrgtcvkpi"rgthqtocpeg"cpf"cxckncdng"uqwtegu"qh"hkpcpekpi "kp" assessing the Group's ability to continue operating as a going concern. The Directors have reviewed the Group's cash flow projections prepared by management, which cover a period of not less than 12 months from 31 December 2023. Notwithstanding the above, significant uncertainties exist as to whether the Group is able to achieve its plans and measures as described above. Whether the Group will be able to continue as a going concern would depend on (i) the successful and timely implementation of the plans and measures for the disposal of the outstanding loan receivables and loan interest receivables; (ii) the successful and timely implementation of the plans for the disposal of the financial asset investments; (iii) the continual support from the existing lenders of the Group such that they will not demand for immediate repayment of the relevant borrowings; and (iv) the successful obtaining qh"pg y "uqwtegu"qh"Łpcpekpi"cu"cpf" y jgp"pggfgf0"

Should the Group be unable to achieve the above-mentioned plans and measures and operate as a going concern, adjustments would have to be made to write down the carrying values of the Group's assets to their recoverable amounts, to provide for any further liabilities which might arise and to reclassify non-current assets and non-current liabilities as current assets and current liabilities, respectively.
